

## 600 / 600 PRO FREE UPGRADE

CarTeck automatic sectional garage doors just got even better...

**FREE upgrade to a CarTeck Drive 600 / Drive Pro 600 for all CarTeck Drive / Drive Pro 500 orders!**

**Why?** We're simplifying our CarTeck Drive range of operators to two models, the CarTeck Drive 600 and the CarTeck Drive Pro 600 and withdrawing the CarTeck Drive 500 / Drive Pro 500 with immediate effect.

The simpler offering not only means every drive will have two Pearl 4-channel handsets instead of two Pearl Twin 2-channel handsets as standard, but you no longer need to work out which accessory packs are compatible – all are now available!

The Drive 600 is also **33% quicker** at 240mm/s than the Drive 500 at 180mm/s, so a 2m high door will open around 3 seconds faster!

**So, what does that actually mean for me and my customers?**

It means you'll get the CarTeck Drive 600 / Drive 600 Pro in place of the CarTeck Drive 500 / Drive 500 Pro at no extra cost – a FREE upgrade on all orders going forward! It's as simple as that.

**How does this affect AutoTrend garage doors?** The same applies! Order any of our AutoTrend garage doors and get a FREE upgrade to the CarTeck Drive 600 with a pair Pearl 4-channel handsets as standard!

PEARL

The Pearl transmitter has four buttons that can be configured to suit your requirements – open and close, turn on the light, operate a second door and so on.
